PROFESSIONAL SUMMARY

Physics graduate transitioning into software development, with hands-on Python project experience and 27 Salesforce Trailhead badges (Apex Triggers, Flow Builder Basics, Lightning Web Components Basics, and more). Strong analytical and problem-solving foundation from a science background, applied to building practical CLI tools, Flask web apps, and CRM automation. Comfortable working across both software development and Salesforce ecosystems.

TECHNICAL SKILLS

- Programming: Python, JavaScript, SQL, HTML, jQuery
- Frameworks: Flask, REST APIs
- Salesforce: Admin & Developer (Apex basics, Flow Builder, LWC, Data Modeling, Reports & Dashboards)
- Tools: Git, GitHub, VS Code

PROJECTS

- Python Weather App — Python, Flask, OpenWeatherMap REST API — Built a Flask web app that fetches live weather data by city, with error handling for invalid input and failed API calls.
- Salesforce Lead Tracker — Salesforce Flows, Lightning App Builder, Custom Fields (100% declarative, no Apex) — Built an automated lead follow-up reminder system with email logging, tested end-to-end with real leads and data.
- Sales Analytics Dashboard — Streamlit, Pandas, Plotly — Built and deployed a live interactive dashboard with KPI cards, regional/category filters, and top-product breakdowns (deployed on Streamlit Cloud).
- Task Manager App — Python, Flask, SQLAlchemy, SQLite — Built a full-stack task manager with user registration, secure password hashing, and session-based login, giving each user a private task list.

CERTIFICATIONS

- 27 Trailhead Badges, incl. Apex Triggers, Apex Basics & Database, Lightning Web Components Basics, Flow Builder Basics, Data Modeling, Reports & Dashboards for Lightning Experience, Data Management
- IBM AI Developer Professional Certificate (Coursera) — In Progress

EDUCATION

B.Sc. Physics	2025
Sree Narayana Guru College of Advance Studies (SNGCAS), Chempazhanthy	
Higher Secondary (Plus Two)	2018 – 2020
St. Mary's HSS Pattom	
SSLC (10th)	2018
St. Mary's HSS Pattom
